Food Scraps only, no plastic

只能接受廚餘和食物垃圾，不允許塑料

음식물 쓰레기 전용. 비닐봉투 배출 금지

Déchets alimentaires uniquement, pas de plastique

Food Scraps Recycling

Transforming Waste into Food

WHAT IS ACCEPTED IN THE FOOD SCRAP BINS?

- All food: fruit, vegetables, plant clippings, meat, bones, coffee grinds, eggshells. Break out soiled parts of a pizza box and toss in the Food Scraps bin (small pieces will not tear the bin liner), and recycle the clean uncontaminated parts of the box in the Mixed Paper bin.

CAN I USE A PLASTIC BAG AND THROW IT OUT WITH THE FOOD SCRAPS?

- No, plastic bags are not compostable – if you carry your food scraps in a plastic bag to the garbage room, be sure to empty the food scraps in the food scraps collection bins and throw out the plastic bag in the trash compactor. You can use paper bags.

WHAT CAN I DO ABOUT ODOURS AND FLIES?

- Layer the bin with newsprint and close the lid after you deposit your food scraps; a box of newsprint has been provided for your convenience next to the bin.

WHAT IF THE FOOD SCRAPS BIN IS FULL?

- If all the bins are full take your food scraps to the compactor for landfill garbage; do not leave bags of food scraps on the floor or on top of the bins.
